Alexander Enberg (Star Trek Voyager)

CRITICALLY ACCLAIMED!

A hilarious comedy about theatre's biggest taboo:
YOU CANNOT SAY "MACBETH" INSIDE THE THEATRE, PERIOD!
What happens if you do? Find out at your own risk!

Danny, a science teacher, tries to reunite with his ex-girlfriend Ruth, who has dumped him to become an actress in Hollywood. Stumbling into an LA theatre during auditions asking, "Is this the audition for Macbeth?" he starts a series of unfortunate events that not only curse the production, but his ex-girlfriend as well, all but ruining his chances for love. Never Say Macbeth is a high-spirited no-holds-barred comedy about the biggest taboo in theatre. Macbeth is believed to be cursed because it is the only Shakespeare play based on black magic and witchcraft, which is why this film, Never Say Macbeth, is also cursed.
